LOT NUMBER IDENTIFICATION

Lot numbers appear on all boxes and rotation is based on the Julian date.

Each can should have a code on the bottom of the can that helps Kent Precision Foods Group, Inc. ensure proper identification of the product. An example is below:

You purchased a can of Chicken a' la King Puree and on the bottom of the can, it reads:

003 2502/1478 PJ

P-217

003: Batch code

250: Julian date; in this example the 250th day of the year

2: Year (last digit) in this example 201(2)

1478: Can number

PJ: Product code

EST: Establishment Number – (P-217 = Poultry)

Therefore, this can of Chicken a' la King Puree was manufactured on September 6, 2012 and will expire two years from this date (September 6, 2014).
